AGRIVAL OF THE AFRICA. The steamer Africa, with Liverpool dates to

the 9th inst , arrived at New York on the 20th

She brings the following intelligence: It was rumored in England, at the time that the Africa sailed, that Hon Robert Lowe Vice President of the Board of Trade, had left for

the United States with special power to settle the Central American Question.

The difficulty between the Allies and Russia is the most important feature in the news, It is alleged that Russia has violated the trea

ty at Paris by the occupation of the Isle of Ser-pents, at the mouth of the Danube, and the non-delivery of Kars.

In consequence of this misunderstanding, the English fleet remaining in the East, has again been ordered to the Black Sea. From Italy we learn that the municipal coun-

cil of Ravenna, clong with others, have voted addresses to the Pope praying him to remove the Austrian occupation. The fine barvest weather throughout Great

Britain created quite a panic among the holds ers of grain and flour in London and Livers At the close the tendency was to a stiffer

market, though without improvement in prices, except on heavier grades.

In London the money market had depressed onsols half per cent, and the feeling had extended itself to some of the American Railway

Mr Washburn's motion was agreed to by 97 to 93 Mr Bocock voted in the affirmative with a view of moving a resconsideration, but did not succeed in obtaining the floor for that. Mr Washburn, of Me , moved to resconsider

Repeated unsuccessful motions were made to adjourn, when the House took a short recess watch make should be a month of a work, and which no to adjourn, when the House took a short recess watch make should be a month of accordance of prices, to await the result of the Senate's proceedings. Mr Hunter said that under the circumstan ces the bill should be showed to fail. He movd that the Senate adhere also.

Mr. Bell, of Tenn. said that the House had taken a very unosa I and unparliamentary and i excusable course. The previse after all was was but an abstract idea, since Congress can never control the executive in the discharge of

bis duties. He hoped the bill would not be al-lowed to fail, and suggested asking a committee of conference.

Mr. Hunter replied, " if he believed a committee could agree, he would consent, but the action of the two House on the former bill, and the vote of the House of Representatives extended too, raid also selicit a continuance of the to adhere, now satisfied him that there was no need of passing the bill in proper form. Mr. Cass regarded this as the most solemn crisis that had ever occurred in the history of the country, and he expressed a hope that the people would awake to a sense of their danger below it was too burn. Mr. Wade argued that instead of the House

trying to dictate to the Senate, the Senate was in fact trying to diet ite to the House. He sugof for yof the principal Dentists of Boston, for which gested the propriety of receding so as to pass the bill.
